PART-D

PCB LAYOUT DESIGN EXERCISE WITH ALTIUM TOOL

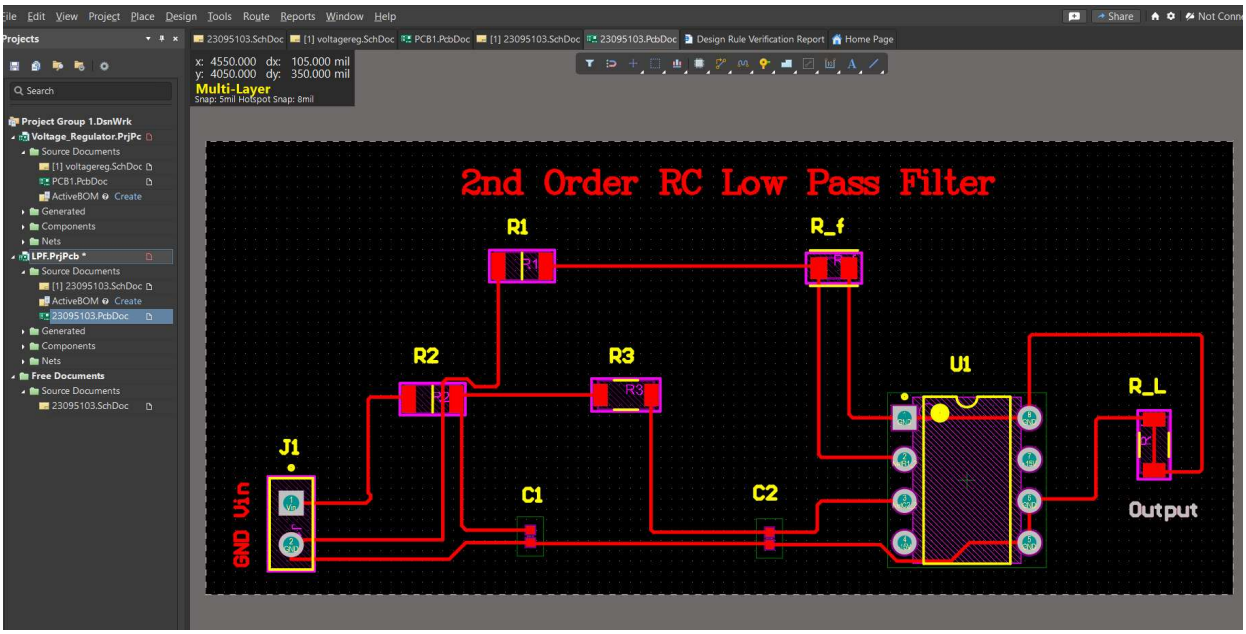

Designed Circuit: 2nd Order RC Low Pass Filter

Circuit Schematic:

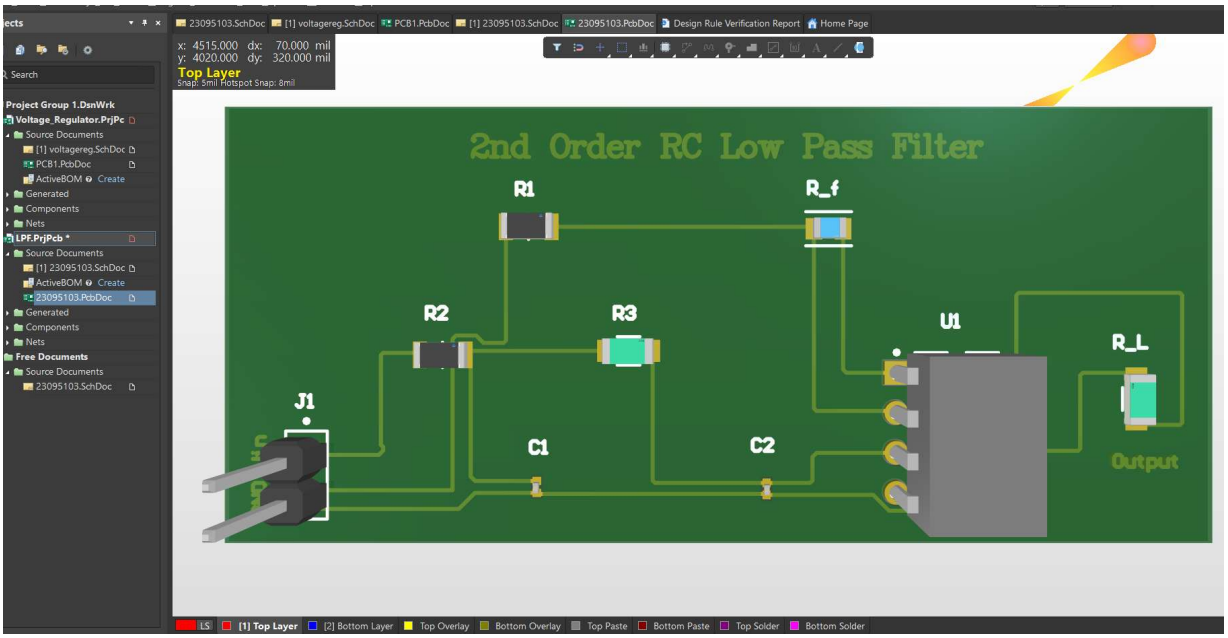

PCB Layout:

2D View:

3D View:

Layers present in the Final PCB layout:

Layer stack = Top overlay -> Top solder -> Top layer -> Dielectric 1 -> Bottom layer -> Bottom solder -> Bottom overlay

Total layers = 2 (Top layer, Bottom layer)

Total area of the designed PCB:

Length = 2540 mil = 62.23 mm

Width = 1080 mil = 27.432 mm

Area = Length * Width

= 1707.093 mm^2

= 17.07cm^2

Total thickness = 1.4 mil + 12.6 mil + 1.4 mil (Top layer, Dielectric, Bottom layer)

= 15.4 mil

= 0.391 mm
